- Analytical thinking & problem-solving
- Strong attention to detail
- · Passion for learning, growth & new technologies

Projects

Portfolio Website

HTML, CSS, JavaScript, Bootstrap

Built and deployed a responsive personal portfolio to showcase independent web development projects. Focused on **usability**, clean UI, and mobile responsiveness. Incorporated best **coding** practices and responsive **technology** to ensure accessibility.

Mini Web Apps Suite

JavaScript, HTML, CSS, jQuery, Rest APIs, Databases, Bootstrap

- **To-Do List App** Prioritized **time management** features and intuitive UX.
- **CRUD Operations App -** Developed a web app to create, read, update, and delete user data.
- Calculator Clean, responsive UI with a focus on usability and logical coding structure.
- **Gazetteer App** API-powered geographic tool using external services; included **error handling**, **logging**, and real-time **troubleshooting** techniques.

Work Experience

Warehouse Associate

IKEA Distribution Centre, UK | August 2024 - Present

- Processed 100+ daily orders with 100% accuracy using warehouse management technology.
- Performed within strict time management targets and maintained strong communication across teams.

Warehouse Associate

Amazon, UK | May 2023 - June 2024 & March 2020 - February 2023

 Processed 50+ orders per hour using digital systems with a high focus on product tracking, logging, and efficiency.

Support Technician

Continental Automotives, Timisoara, Romania | August 2017 - September 2019

- Diagnosed and repaired over 50 PCs/laptops, ensuring hardware usability, system stability, and integration with core technology.
- Communicated technical solutions clearly via phone/email, achieving a 90% first-call resolution rate.
- Logged and tracked incidents in Jira/ServiceNow, resolving 70+ tickets weekly and updating the support knowledge base.
- Recommended and implemented **process improvements**, reducing repeat issues by 25%.

System Test Engineer (Intern)

Continental Automotives, Timisoara, Romania | September 2016 – March 2017

- Performed root-cause analysis and troubleshooting on CAN communication failures.
- Logged and tracked 50+ software defects using Jira, helping improve product quality and test coverage.
- Used Agile principles and **communication** tools to report blockers and synchronize with software/hardware engineers.
- Participated in Agile meetings and communicated status and blockers with cross-functional teams.

Education

BSc Informatics (Computer Science)

Polytechnic University of Timisoara | 2014 - 2017

Certifications

Microsoft Certified: Introduction to Programming Using HTML and CSS
